PROFESSIONAL SUMMARY

Senior QA Automation Engineer with 10+ years of experience in Software Quality Assurance and over 6 years focused on test automation for web applications, APIs and enterprise systems.

- Experienced in Shift-Left Testing, End-to-End Automation, API Testing, BDD practices, Continuous Integration, and Quality Engineering.
- Strong background working within Agile environments and collaborating with cross-functional teams to ensure high-quality software delivery.
- Skilled in Playwright, Cypress, JavaScript, TypeScript, Postman, SQL, GitHub Actions, and Jenkins.
- Passionate about leveraging Artificial Intelligence and workflow automation to improve software quality processes and team productivity.

TECHNICAL SKILLS

- **Test Automation:** Playwright, Cypress, JavaScript, TypeScript, End-to-End Testing, Functional Testing, Regression Testing.
- **API Testing:** REST APIs, Postman, Newman, Contract Validation, Integration Testing.
- **Quality Engineering:** BDD, Cucumber, Gherkin, Shift-Left Testing, Test Planning, Test Strategy, Defect Management.
- **DevOps & CI/CD:** Git, GitHub, GitHub Actions, Jenkins, Continuous Integration.
- **Databases:** SQL, Data Validation, Query Analysis.
- **AI & Automation:** Prompt Engineering, AI Agents, LLM Integration, n8n, Workflow Automation.

PROFESSIONAL EXPERIENCE

RECLAME AQUI

QA Engineer | 2021 – 2026

- Worked as an Agile QA within Scrum teams.
- Designed and maintained web and API test automation using Playwright, Cypress, JavaScript, and TypeScript.
- Participated in Shift-Left initiatives, contributing from requirements analysis to delivery validation.
- Created and maintained BDD-based automated scenarios.
- Validated critical APIs and ensured software integration quality.

- Developed workflow automations using AI, LLMs, and n8n to improve internal processes.

BRISA SOCIEDADE PARA O DESENVOLVIMENTO DA TECNOLOGIA DA INFORMAÇÃO

QA Analyst | Acting QA Lead | 2015 – 2021

- Coordinated testing teams and quality assurance activities.
- Led software validation efforts for LG smartphone software updates.
- Planned and executed functional, exploratory, and regression testing.
- Produced quality reports supporting release decisions.
- Mentored junior and mid-level QA professionals.
- Monitored quality indicators and defect management processes.

HIGHLIGHTED PROJECTS

QA Automation Suite

- Test automation framework built with Playwright and TypeScript.
- Page Object Model and BDD-based architecture.
- Continuous execution through GitHub Actions.
- API testing with Postman/Newman.
- Performance testing using K6.

Asta-QA

- AI-assisted platform focused on QA artifact generation.
- Automated generation of BDD scenarios, test plans, Playwright scripts, and Postman collections.

EDUCATION

- Systems Analysis and Development, Descomplica University.
